

3 Types of Vitamins

The importance of Pharmaceutical Grade Whole Food Supplements

Synthetic Vitamins – Drug Store Variety

- Man-made with imbalanced formulas
- Harsh binders & fillers often with shellac coating- difficult to absorb
- No live Enzymes (necessary for life, like a plant seed)
- Artificial colors, flavor, sweeteners
- **FAKE FOOD**

Natural Vitamins – Health Food Store Variety

- “Natural” may only mean 10%- regulations vary in every state
- Harsh binders & fillers are often used
- Chemical and/or heat extraction (destroys enzymes)
- Imbalanced (skimp on biotin, mega dose cheap Bs)
- Many are coated with shellac – difficult to absorb
- **PARTIAL FOOD**

Shaklee is... Pharmaceutical Grade - Whole Food Supplements

Shaklee Brand Supplements: (Gluten Free)

- **Live enzymes**
- **No chemical or heat processing**
- **Highest quality raw materials- guaranteed purity**
- **Feeds and improves cell health- clinically proven**
- **FOOD**

100% Guaranteed! Try for 30 days, if you don't feel better send the empty containers back
